NOTES / WINS / OPERATIONAL CHAOS

PESA STRATEGIC REMINDERS

This schedule is ambitious, but it is no longer random.

I am developing an actual annual circuit:

- coaching events
- expedition leadership
- seasonal Norway migration
- media/content output
- paragliding partnerships
- operational/system responsibilities

The biggest risk is overload and fragmentation. The schedule only works if I protect recovery time, maintain consistency instead of intensity spikes, and treat content/documentation as part of the job.

The strongest part of this trajectory is that multiple worlds are beginning to reinforce each other:
skydiving -> coaching -> INNHOPP -> storytelling -> Level Wings -> visibility -> more invitations.

That compounding effect is the real career path.

PESA is becoming suspiciously real.
